CORE CAPABILITIES

- **IT Consulting and Advisory**
We analyze your business technology issues and short-term and long-term needs and objectives, and provide advice on comprehensive strategies for integrated solutions to fit your business needs and budget.
- **Information Technology Services**
We optimize IT to ensure that your investments (systems, processes, resources) are running at optimum performance and they are fit for your business growth.
 - **Network assessment, design and configuration**
 - **Ongoing computer maintenance, support and repair**
 - **Wireless Solutions (Access Points, Mesh WiFi devices)**
 - **Phone system installation and support (VoIP, Hosted PBX)**
 - **Network wiring (for data and voice)**
- **Security (NIST/FISMA Compliance)**
We stay informed about potential vulnerabilities and implement specific measures and policies to prevent security threats such as viruses, malware, employee malpractice and other types of security breaches, with the goal of protecting your network on an ongoing basis.
 - **Network security, anti-virus and anti-spam**
 - **Data Backup Solutions (implementation, maintenance and monitoring)**
 - **Disaster Recovery**
- **Managed Services**
EDSOL provides your business with fast and reliable remote and on-site support. Our monitoring solutions allow us to

detect and repair any issues before they affect your systems and business productivity.

- **Managed Infrastructure Services (Firewalls, routers, network and POE switches)**
- **Managed Cloud Hosted File Sharing and Email Services**
- **Managed PBX Cloud Hosted VOIP Phone Systems**
- **Server Systems Setup and Administration**
- **Computer Help desk services**
